Type of support that respondents receive

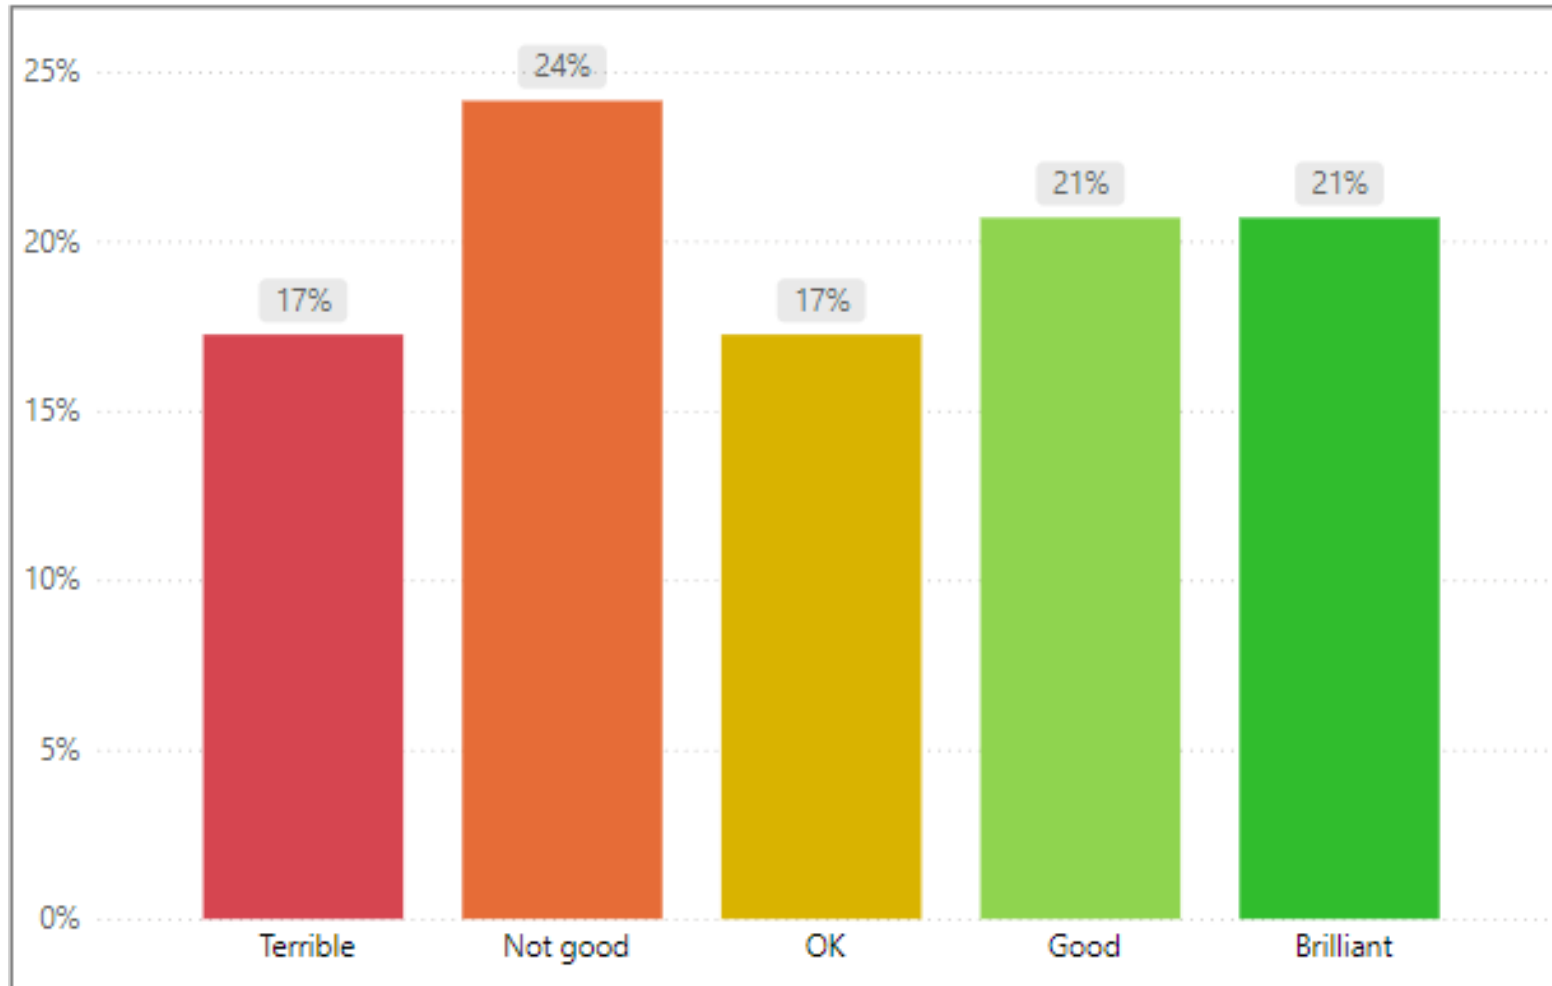

In the last year how good a job did professionals (like teachers, psychologists, or social workers) do with providing you with **help and support:**

Four questions were asked concerning the above theme. Children and young people were asked to provide a rating from terrible to brilliant

Giving me help *when* I need it, so I don't need to wait

Listening to what I think and giving me choices about the help I get

Giving me the right help and support

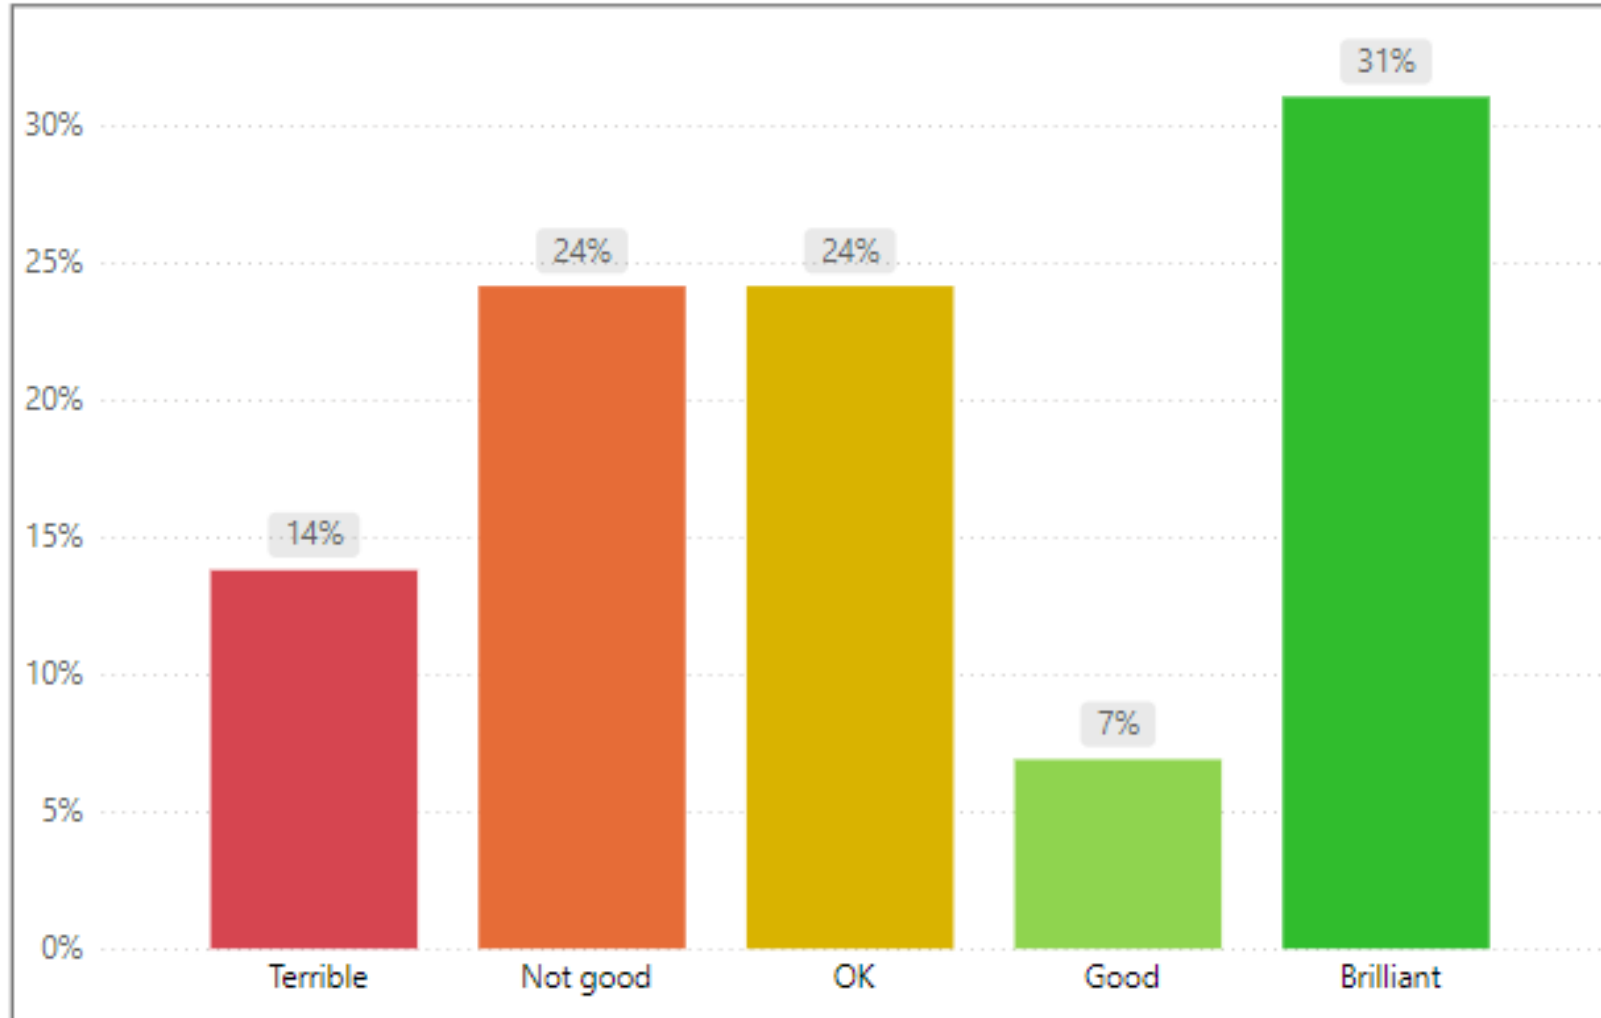

All working together, even if they are from different teams or places (e.g. like a teacher and a doctor talking to each other to help me)

In the last year how good a job did professionals (like teachers, psychologists, or social workers) do with **helping me to live a good life:**

Six questions were asked concerning the above theme. Children and young people were asked to provide a rating from terrible to brilliant

Take part in school, learning, work or training

Feel happy with my life

Be independent and feel ready for when I'm a grown up

Be fit and healthy

Enjoy doing things in my local area, like going to clubs, groups, or doing other things people my age go out and do

Have good relationships with other people my age and grown ups
