Dear Resident/Occupier

Email: schemes@havering.gov.uk

Date: 11th October 2024

Collier Row Road / Clockhouse Lane / Chase Cross Road / Collier Row Lane Roundabout Collisions Reduction Scheme
- Proposed safety improvements

We would like to hear your views on a proposed safety improvement scheme for your road.

It follows a feasibility study that was carried out and found that up to 1,400 vehicles per hour use Collier Row Roundabout with speeds of up to 35 mph regularly recorded on the approaches. Further analysis of collision records showed that there have been a total of seven personal injury accidents (PIAs) were recorded at the roundabout. Of these seven PIAs, all seven were slight; two involved pedestrians and one occurred during the hours of darkness.

With funding being provided by the Mayor of London's Transport for London office (TfL), we can now look at a proposed scheme including the following.

- Chase Cross Road pelican crossing centre island to be lowered and tactile paving adjusted to the current standard to improve pedestrian safety at the north section of the crossing.
- Look left and look right road markings at the exit of the zebra crossing in Collier Row Lane to warn pedestrians about the direction of vehicles.
- Existing zebra belisha beacon posts to be upgraded to internally illuminated posts in Collier Row Lane approach to see the crossing noticeable.
- Additional lane markings on the approach to the zebra crossing on Collier Row Lane from the roundabout

Large scale plans can also be seen on the Council website - <https://consultation.havering.gov.uk/highways>

Your comments on the proposals would be welcomed and should be sent in writing via email to schemes@havering.gov.uk to be received by **Friday 1 November 2024**.

Please note I am unable to answer individual points raised at this stage, however your comments will be noted and taken into consideration when presenting the final report to the Council's Lead Member for Environment. Any issues will be addressed at that time.

All comments received are open to public inspection and the report will be made public.

If you need any more information, please contact me by e-mail, shown at the top of the letter.

Yours faithfully,

V. Siva

Siva Velup
Senior Engineer, Highways, Traffic and Parking.
